To Oversee a**

**CONCEPT STUDY FOR A REGIONAL WATER AND SEWER AUTHORITY**

The elected officials of the four entities (Harford County, City of Aberdeen, Town of Bel Air and City of Havre de Grace) invite qualified and interested citizens to apply for appointment to an Advisory Committee that will oversee a conceptual study to examine the advantages, disadvantages and practicalities of establishing a financially self-supporting regional authority to provide water and sewer services to the residents of the four entities. Among the topics to be addressed:

- Types and range of services that could be provided (now or in the future)
- Governance
- Financing
- Consolidation of existing utilities (assets, liabilities, personnel, etc.)
- Growth management
- Economic development

The Advisory Committee whose selected members will represent each of the three municipalities and Harford County Government, will work with a small team of independent consultants and a Technical Advisory Group (comprised of professional career staff members of the four municipal entities with a wide range of competencies and perspectives) who will support the Advisory Committee's investigations and deliberations. The Advisory Committee is expected to meet approximately twice per month during normal business hours for a four-to-six month period, and membership will require a serious commitment of volunteer time. Residents of the four entities with relevant backgrounds and experience (e.g., finance, engineering, environmental issues, business, real estate development, law, organizational analysis, information technology, human resources, etc.) are invited to apply to serve on the Advisory Committee on an unpaid basis. A simple one-page application with instructions for submission can be found on the website: [www.harfordcountymd.gov/dpw](http://www.harfordcountymd.gov/dpw) . Deadline for submission of applications is February 1, 2013.

The Committee will not include elected officials from any of the entities. The findings, conclusions and recommendations of the Committee will be advisory in nature, and will be delivered to the four municipal entities and made available to the general public.
